WHAT IS NET.FLEET?

Do you want to know where your plane, car, bike, yacht or other vehicle is?

We give you an easy and efficient solution: **NetFleet** - a real-time vehicle tracking system that helps you **optimize all the costs**, associated with them.

The system provides **various reports and statistics**, that allow you to **increase the efficiency and organization** of work in your company.

YOU CAN EASILY MANAGE:
Vehicle fleets

Agricultural and construction machinery

Trucks for domestic and international transport

Planes

Trains

Buses for public urban, intercity, and international transport

ADVANTAGES OF THE SYSTEM:

- Intuitive design
- Available on all mobile devices
- Notification when exceeding a set speed limit
- Driver identification
- A wide territorial scope
- Registration of an unlimited number of vehicles
- Reports when predefined locations to be visited
- Real-time fuel consumption and speed control

NetFleet transmits data from our GPS devices automatically to the toll collection system.

- Optimize the routes and the overall costs of the fleet such as:
  - » forthcoming maintenance
  - » renewal of insurance policies
  - » possible damages
  - » abuses
